Excerpt: 75% of Americans claim to be Christians, yet less than half vote. If they voted using their Biblical principles, there would not be any culture war in this country. But where can Americans find **Biblically honoring information about the candidates**, since over 75% of the media elites are **against** Christian principles. Perhaps this will help. You can [download this webpage as a PDF version \(SureBolt.com/2018N.pdf\)](#).

Who writes the news? Who writes the history? The majority always controls the news and the history books. Yet Jesus said the majority would wind up in hell (*wide gate verses narrow gate, many verses few, Matt 7:13-14*). **So why do we expect the majority to tell us the truth?** If you want to see quotes from the media admitting their anti-Christian biases and also **get links to more reliable news sources on specific subjects**, see this link, [Better-News.org](#). If you would like to encourage others to vote, see this flyer called **"God said Vote!"** at [SureBolt.com/Vote.pdf](#)

[Intentionally misleading news](#) or innocent mistakes? All reporters sometimes make mistakes. But who would you rather get your news from: groups that have a fear of God, or groups that have no fear of God? 150 years ago, in many states, you could **not take the witness stand** in a court of law, unless you believed in the God of the Bible. Why? Because the law said if you did not fear God then you had no real fear of lying. After all, **if God does not exist, why not lie to get what you want?** So which news organizations do not have a fear of lying? The ones that do not fear God. So which media organizations have the highest percentage of misleading news? Same answer, the ones that do not fear God.

No wonder politics looks so dirty. One group that ignores God has the media defending them, and the other group that has some fear of God has the vast majority of the [media attacking them](#). Most Americans do not know which news sources are reliable. **Educate yourself on the media's bias and select sources that at least fear God.** (see [Better-News.org](#)) Government is supposed to be the servant of God in dealing with evil doers (*Romans 13:3 and 2 Samuel 23:3*). But who reports on the government?

**"Where I work at ABC, people say 'conservative' the way people say 'child molester.'" ABC 20/20 co-anchor John Stossel to CNSNews.com reporter Robert Bluey, in a story posted January 28, 2004. (ABC has No fear of God)**

In a 1985 survey of journalists (*reporters and editors*) from 621 papers across the country by the Los Angeles Times, 82% favored abortion, 67% opposed prayer in public schools, and 78% wanted strict gun control. Again, these numbers did not represent the general public. (*Did those journalists show a fear of God? No.*)

George Barna and William Paul McKay published *Vital Signs: Emerging Social Trends and the Future of American Christianity* in 1984. They report from a **1983 study**, which showed that **75 percent of television executives claimed to be politically "liberal."** **Only 7 percent** attended church regularly and 44 percent stated that they had no religious affiliation. **80 percent stated that homosexuality was not wrong.** **51 percent** did not think **adultery** was wrong. A whopping **97 percent approved of abortion.** One can only wonder if those statistics are even worse 35 years later. ... (*this paragraph is just an excerpt from this link, [Better-News.org](#)*)

My favorite issue is not politics, but showing how science proves the Bible is from God (*the Bible has a Miraculous Source*). If you would like to see the proof and many **famous** scientists who defended the Bible, go to [MiraculousBible.org](#) or [ApologeticsPress.org](#). Even **Wernher Von Braun** (*NASA's rocket scientist with more honorary PhDs than anyone before*) tried to get public schools to expose their students to this data. **Isaac Newton** wrote over 1.3 million words on Bible topics exposing the myths of the evolutionists of his day and defending the Bible. How would you prove to a truth seeker (*1 Thess 5:21 and 2 Thess 2:10*) that the Bible itself has a miraculous source? What would be considered as **scientific evidence** it could only be from God? Come see.
